# Guiding your Building's Future Connectivity Roadmap

## 400,000

MDU Connectivity Units Connected  
Since 2019

### REWIRING AND CABLING UPGRADES

Get your building's infrastructure ready for the future with cutting edge cabling and rewiring solutions. We can help you to seamlessly integrate the latest technologies into your existing setups, to elevate your connectivity and performance.

### INNOVATIVE SMART BUILD CONSTRUCTIONS

Our Smart Build Solutions are designed to meet your unique needs, whether it's new device installations, IoT integrations, cameras, or sensors. We bring your vision to life with smart technology implementations that redefine modern living.

### SMART MDUs

Elevate your property's value by offering state-of-the-art technology amenities that attract tenants seeking the ultimate modern living experience. Our cutting edge solutions seamlessly integrate smart technologies, providing residents with unparalleled comfort, security, and connectivity. By offering these advanced features, you increase your property's value and maintain a competitive edge in the market.

### TAILORED CONNECTIVITY SERVICES

From smart racks to infrastructure cabling, our end-to-end solutions ensure seamless connectivity. Our technology agnostic services effortlessly integrate your preferred systems, delivering optimal performance and reliability. Trust in our expertise to bridge the gap between your vision and reality.

### TURNKEY SUITE SERVICES

Simplify your journey with our turnkey solutions. We handle everything from design and installation to maintenance and repairs, offering you a hassle-free experience throughout the lifecycle of your smart building.

## The Unmatched Experience of a First Class Organization

#### PROVEN TRACK RECORD

We've successfully delivered solutions for renowned names in the hotel, retail and food service sectors, equipping them with intelligent systems that enhance customer experiences.

#### PROJECT MANAGEMENT EXPERTISE

A one-stop shop with an experienced team of professionals ensures your project is executed flawlessly from start to finish. We manage relationships with local suppliers, handle permits, liaise with property managers, and deliver results that exceed expectations.

#### NORTH AMERICAN REACH

With a prominent and well-established North American presence, our commitment to excellence extends beyond the initial installation phase. We take pride in offering a comprehensive range of maintenance and repair services for all our installations.

#### MAINTENANCE RESPONSIVE SUPPORT

Our commitment to post-installation support is unwavering. We prioritize responsiveness, ensuring that any issues are addressed promptly to keep your smart building running seamlessly. Experience the peace of mind that comes with knowing your smart building investment is in safe hands.
